## PRODUCT INTRODUCTION

- Natural honey  
Код ТНБЭД : 040900

Do you know that Kyrgyz honey is one of the best honey in the world?

At one time, as part of the USSR, Kyrgyzstan ranked third by volume after Russia and Ukraine. There were almost 500 thousand bee families in the republic. The volume of production reached 12 thousand tons.

But now, in honey industry, Kyrgyzstan is famous for quality. Kyrgyz honey has won several international prizes & awards.

2,500 plant species give unique multiflowered composition. Deep in the removed mountainous regions of Kyrgyzstan, wild bees produce a multi-floral composition of honey that includes sainfoin, alfalfa and sweet clover, edelweiss yellow, dog rose, barberry, currant, and other plant species which give a unique rich flavor unparalleled by any other. Each variety of honey has its own unique healing features. "It is better to have food as medicine than medicine as food". Find out more about the types of natural honey in Kyrgyzstan and discover new tastes, colors and textures.
